

## Professional Sales Representatives, LLC

Pro Sales Reps

Press Release

April 19, 2010 - Andover, KS

Professional Sales Representatives, LLC is very proud to announce that we have expanded our representation of STI products into 5 more states, Idaho, Montana, Wyoming, Utah, and Colorado. Safety Technology International, Inc. provides solutions to "protect the things that protect you", including manual pull stations, keypads, control panels, thermostats, card readers and more.

STI is a family owned and operated business that began over twenty five years ago with Jack Taylor's invention of the Stopper Pull Station Protector. STI now markets more than 40 unique products throughout the world to prevent false fire alarms and the theft and vandalism of the things that protect us all such as smoke detectors and fire extinguishers.

For more information, please visit STI's website at [www.sti-usa.com](http://www.sti-usa.com) or contact your local PSR Rep -
