

Visonic, NTC Offer PERS Training to Integrators

Sep 30, 2009, BLOOMFIELD, CONN. -- Visonic Americas, a manufacturer of personal emergency response systems (PERS), is partnering with the National Training Center (NTC) to offer comprehensive, interactive online training for its solutions.

The course will introduce dealers and integrators to the opportunities offered in the growing PERS market. According to a [recent report](#) by research firm Parks Associates, the wireless home healthcare market is expected to hit \$4.4 billion in the next four years.

The 30-minute online training is expected to give participants a clear path in approaching the PERS market and empower dealers and integrators to grow their business.

Visonic offers its AmberBasic, a standard PERS product that offers a lifestyle and safety management solution with the option to add tele-health for Bluetooth enabled vital signs monitoring.
