

PSR APPOINTED SALES AGENCY FOR XANBOO SECURITY ENHANCED

New York, NY, April, 9, 2009. Xanboo Inc. announced today the appointment of Professional Sales Representative, LLC (PSR) as its sales agency for security dealers and central stations located in the 13 state territory consisting of Alaska, Arizona, California, Colorado, Hawaii, Idaho, Montana, Nevada, New Mexico, Oregon, Utah, Washington and Wyoming. With Xanboo Security Enhanced products, security dealers will be able to upgrade their customers' security system with features that include virtual keypad, pre/post event video clips and live video, available from anywhere in the world over the Internet on their web-enabled mobile phones or PCs. Xanboo Security Enhanced is a simple to install, monthly fee based service which will provide security dealers and central stations with additional RMR as well as an important and useful product for both existing and new customers.

Xanboo also offers is a number of accessory products such as indoor and outdoor cameras, lighting controls, a wireless thermostat and sensors for water leaks and temperature variations outside of a pre-set range. With Xanboo Security Enhanced, customers will have available an easy to use and affordable system that will help simplify their lives by making it possible to stay in- touch with their homes and businesses from anywhere, as well as to instantly receive alerts and view alarm events in real time.

Bill Diamond, CEO and Co-Founder of Xanboo said "We are very excited to be working with PSR, one of the largest and most established sales agencies in the security industry. They will help greatly in our developing and serving a strong base of security dealers and central stations throughout the 13 state territory that they cover."

Mike Moorman, Vice President of PSR said "Xanboo Security Enhanced brings to the security industry a new level of Interactive service that is affordable, easy for dealers to install and simple for customers to use. This important new source of RMR will be very welcome by dealers and central stations during the current economic climate. We expect strong pent-up demand for these new services which are designed to integrate easily with both new and existing customers' security systems.

About Xanboo. Founded in 1999, Xanboo was an early pioneer in the development of Interactive services, remote access to video, as well as sensing and control devices over the Internet. Xanboo's self-provisioning gateway is the only "wireless, plug and play" system that allows streaming video over a customer's standard broadband connection regardless of their modem/router combination. Xanboo has been issues ten patents covering items such as system architecture, signaling technology and functional designs of its Interactive services platform.

About PSR. Established in 2001, PSR operates in the 13 Western States representing quality products and services in the Electronic Security Industry with nearly 300 years of selling experience. For more information on the company, please visit www.prosalesreps.com.
